For Users, By Users

# | Agenda

- **Migration Misconceptions**
- **Migrate to Dynamics 365**
- **Managed ERP (GP/SL/NAV/AX) in Azure**
- **Next Steps**

The Largest Independent Gathering of  
the Microsoft User Ecosystem

# The Real Cloud Migration Myths

- More Risk
- More Time
- More Disruption

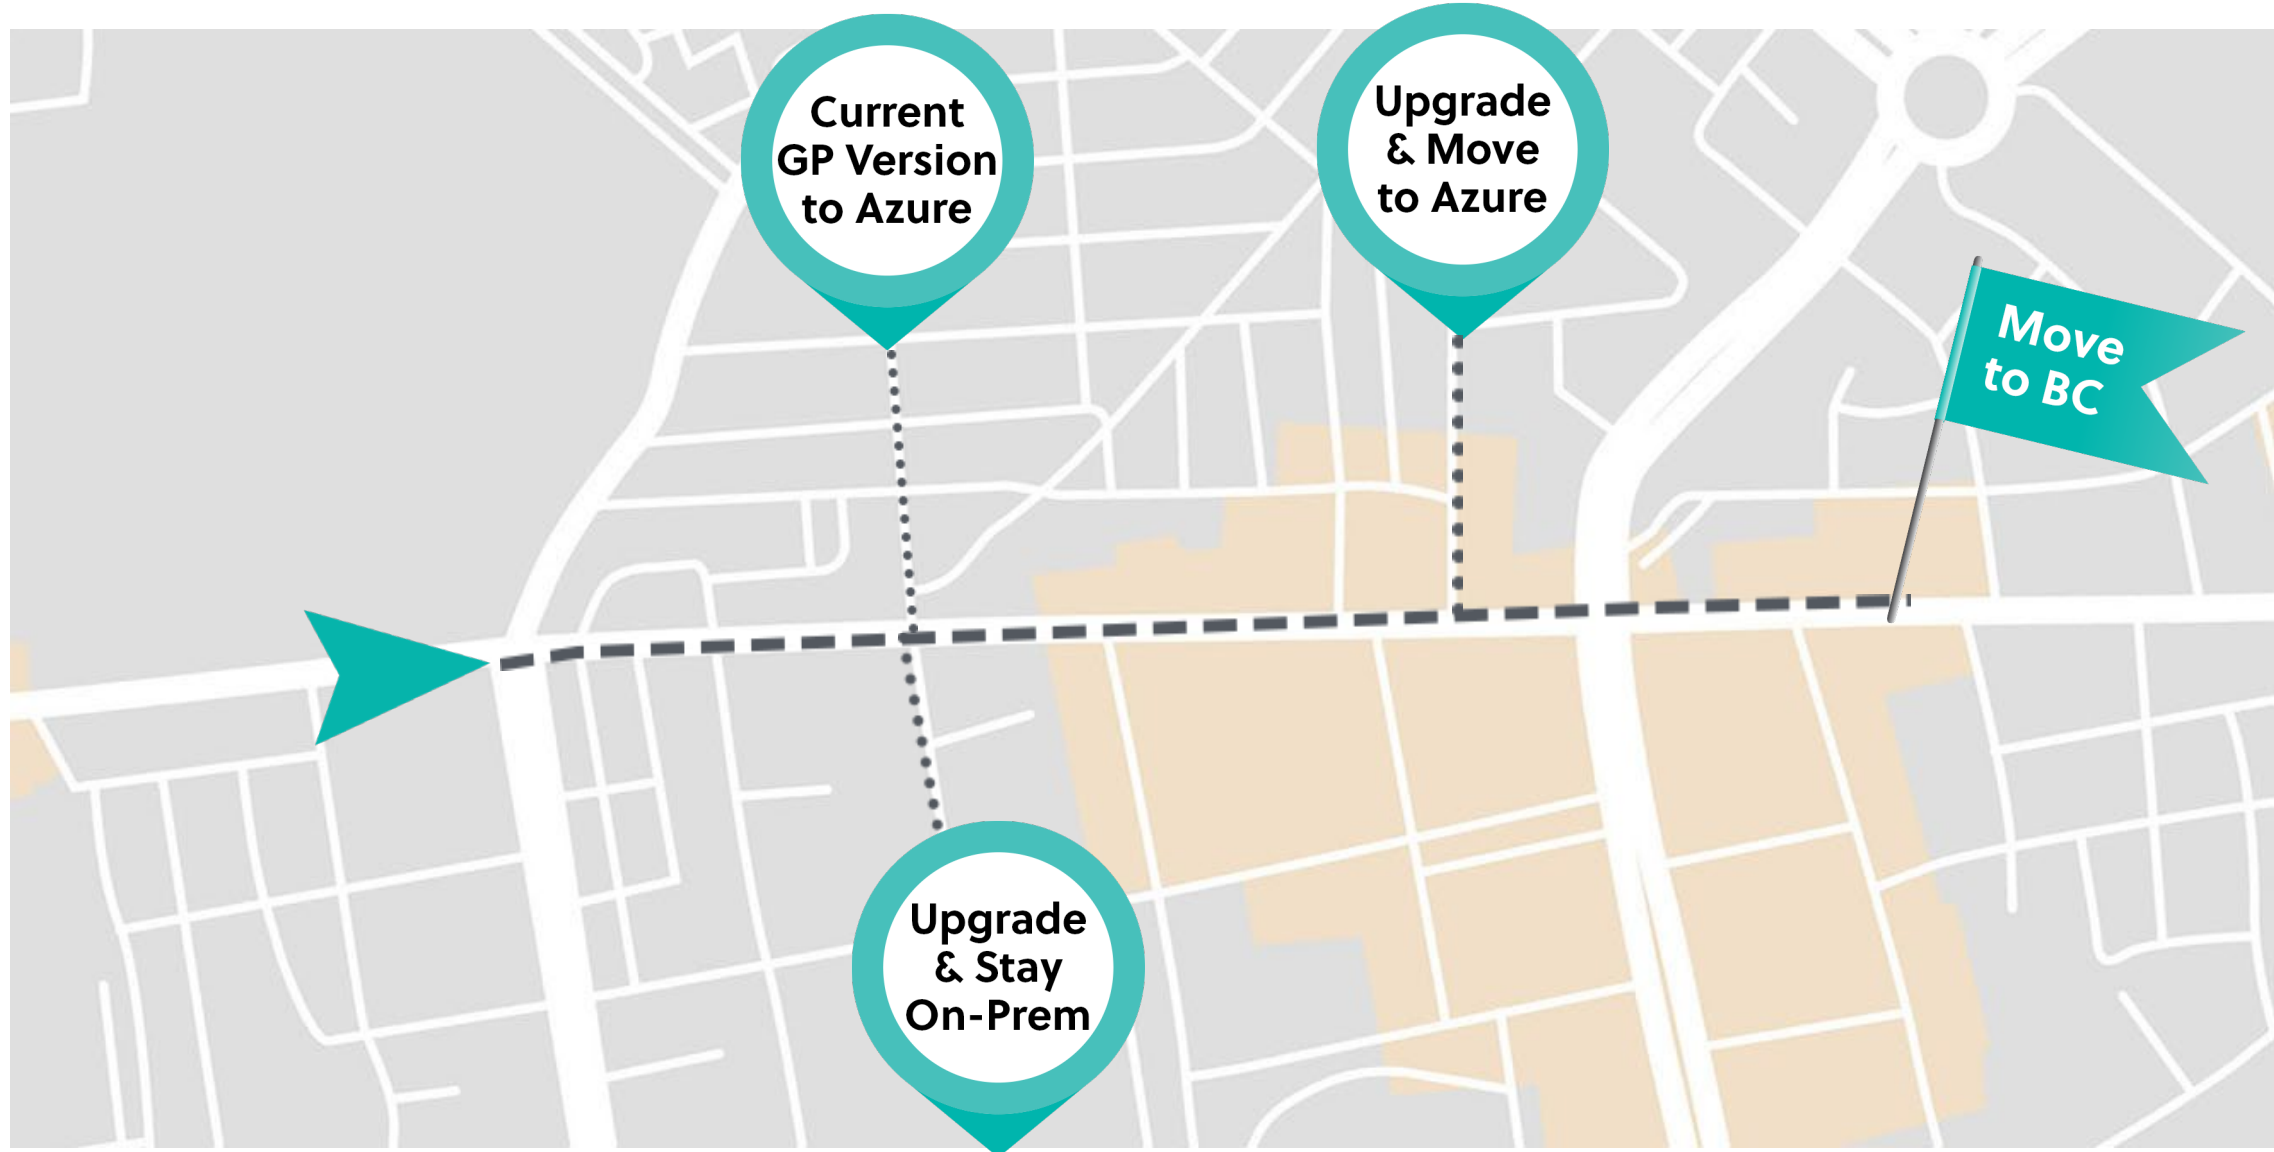

# Which ERP Path is right for me?

- Direct to Dynamics 365 in the Cloud
- Dynamics 365 on Premise
- GP/SL/NAV/AX to Azure IaaS as a mid-term strategy

# Your Migration Path - It's Your Choice

Decrease Complexities,  
Deliver Results.

# BC Migration the Easy Way

For Users, By Users

@ 2022 Dynamic Communities

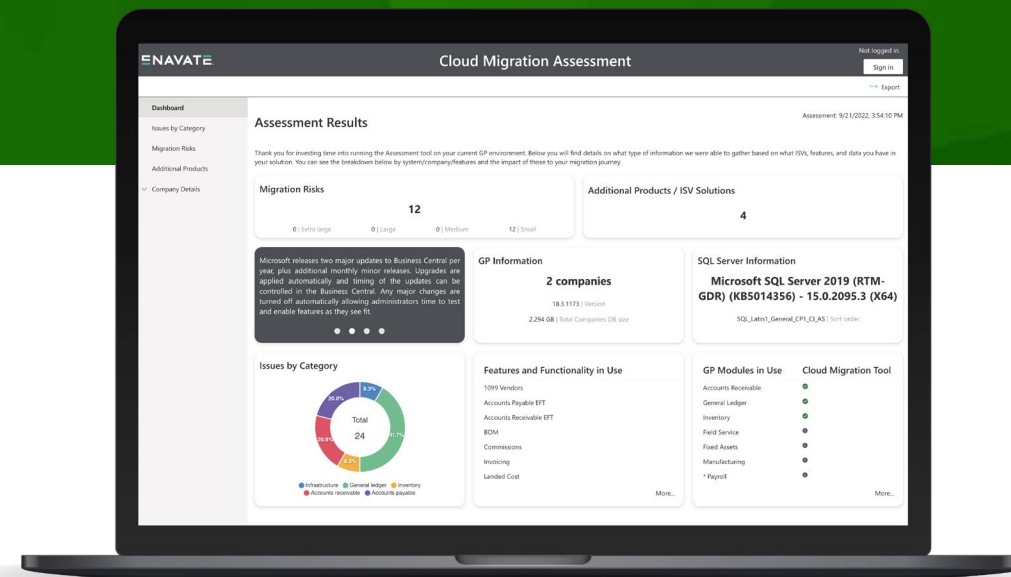

# Top 9 Benefits of Business Central

1. **Dimensions** – slice and dice your GL data naturally
2. **Office Integration** – Work directly in Outlook for key client tasks. Update BC data from Excel with a click of a button. Word reports.
3. **Power BI embedded in BC** – make critical business decisions on the fly with all of your reports available where you need them!
4. **Anytime/Anywhere/Any device access** – Phone, Tablet and Laptop access anytime your staff needs to work!
5. **Personalize Role Centers** – enable you to personalize to the tasks most relevant to your needs.
6. **HR and Payroll** available for a well-known GP ISV (Integrity Data)
7. **Power Automate** – workflows built into the flow of your business solutions
8. **MICR** – core feature within Business Central
9. **Full Supply Chain functionality** for managing warehouse operations.

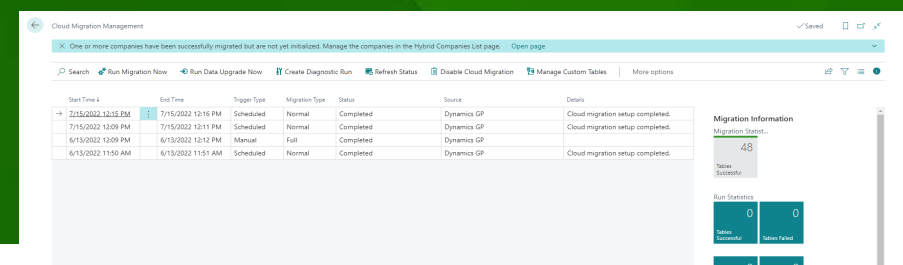

# Migration Assessment: Free, Quick and Simple

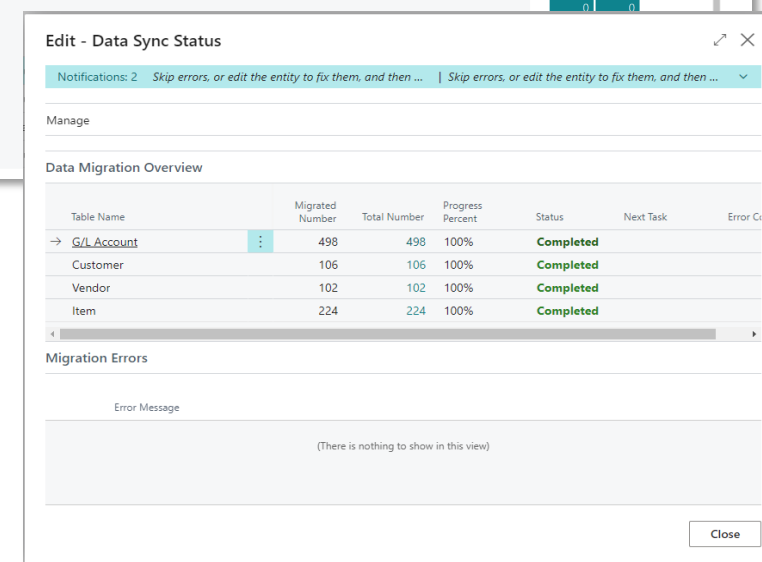

- ❖ **SAVES TIME AND MONEY** on discovery
- ❖ **REMOVES GUESSWORK** on your migration path
- ❖ **PROACTIVELY ADDRESS** concerns and identify roadblocks
- ❖ **PROVIDES GUIDANCE** on your journey to the cloud and reduces uncertainty
- ❖ <https://bcmigrationassessments.com/>

# Migrate GP to BC

- ❖ XCELERATE RAPID MIGRATION methodology
- ❖ PREDICTABLE FIXED PRICE approach
- ❖ PHASED APPROACH OPTIONS based on complexity

# Azure Data Lake

Easily access your GP data after migration by creating a copy of your GP database

- ❖ **CREATE** a storage account in Azure
- ❖ **COPY** your GP data intact
- ❖ **VIEW AND BUILD** reports on your historical data

Decrease Complexities,  
Deliver Results.

# Managed ERP in Azure

For Users, By Users

@ 2022 Dynamic Communities

# Cloud Considerations

Data Protection

Business Continuity

Distributed Workforce

Short & Long-Term Cost  
Savings

Security & Compliance

End User Experience

# Simplicity of Managed ERP in Azure

1

## Complete the FREE Assessment:

- Quick/Easy tool to run
- Informed decision by taking away risks and unforeseen situations

2

## Managed ERP in Azure Quote Generated

- Includes review of findings from tool and any other considerations identified
- Includes all costs for capacity, end to end platform management on Azure platform, Operating Systems, and Platform applications such as SQL Server

3

## Execute Cloud Migration

- Environment built to Enavate standards derived from countless cloud deployments and available for testing prior to cutover
- Typical cutover occurs in a single maintenance window with little to no disruption

**BENEFITS**

— **REDUCE RISKS**

— **EXTEND UPDATES**

— **INCREASE RESILIENCY and UPTIME**

— **INCREASED FLEXIBILITY**

— **NO LEARNING CURVE**

— **ENHANCED SUPPORT**

# GP/SL/NAV in Azure as an Interim Step

- Minimize risk of aging systems and local environmental risks
- Azure extends security updates for Microsoft EOS (End of Support) for applications and platforms as you prepare for your migration to Business Central
- Azure DR technologies improve ERP disaster recovery plans using enhanced Azure DR solutions such as ARS with improved RTO (Recovery Time Objectives) and RPO (Recovery Point Objectives)
- Better manage capacity needs with flexible compute and storage capacity of Azure
- Scale remote user access as needed through Remote Desktop Services

# Additional Azure Interim Steps

- Leverage Azure as your ERP DR Target using ASR (Azure Site Recovery)
- Maintain a scaled down, fully functioning, running Archive version of your GP/SL/NAV environment in Azure for Audit and legacy reports for a small monthly fee.
- Identify other non-ERP workloads that could be migrated to Azure to improve resiliency, reduce risk, improve performance, and reduce costs.
