

ENAVATE™

CLOUD SERVICES

*Transform your business
with the power of Cloud*

It's no surprise that companies big and small are benefiting from their investments in Cloud technologies. From rapid deployment and remote access to data security and business continuity, business leaders know the features of the Cloud are critical to the sustainability and success of their businesses.

"The question is no longer if, but when to move to the Cloud."

— KEVIN ARMSTONG
GLOBAL ENTERPRISE STRATEGY LEADER,
ENAVATE

With over a decade of Cloud experience and a proven migration methodology, our team of Cloud and industry experts understands the complexities of Cloud migrations and can help you optimize your Cloud investment.

MANAGED CLOUD AND MANAGED ERP IN THE CLOUD

Take advantage of our 'customer-centric Turn-Key' managed Cloud services that allow you to focus on your strategic initiatives as opposed to worrying about the health and availability of your mission-critical systems and platforms.

REMOTE WORKFORCE SOLUTIONS

Your people are the heart of your business. Stay competitive by allowing your staff to work securely from any location, anytime. Leverage Enavate's Virtual Desktop Infrastructure (VDI) and Disaster Recovery as a Service (DRaaS) offerings to ensure your business doesn't skip a beat.

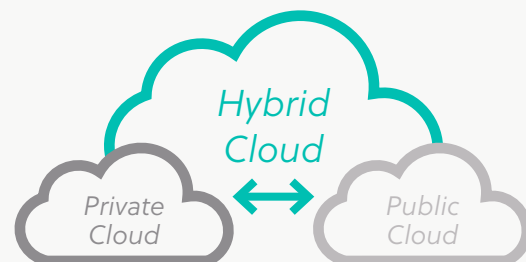

CLOUD MIGRATION SERVICES

Migrate your business applications with confidence knowing our team of Cloud and industry experts have the experience and proven methodologies for a successful migration.

***"We are Cloud experts,
so you don't have to be."***

— ENAVATE'S CLOUD TEAM

DYNAMICS ERP EXPRESS CLOUD MIGRATION SERVICES

Utilize our rapid 1-to 4-week streamlined migration of Dynamics GP, SL and NAV to the Azure Cloud with pre-defined assessments, automation and technical services which help increase application resiliency and performance. When combined with our ERP/Application managed services the migration can be done with no upfront costs.

COST OPTIMIZATION & RIGHT SIZE YOUR ENVIRONMENT

Take control of your Cloud investment by leveraging of our systems, tools and extensive experience in Cloud architecture and right-sizing of Cloud environments. We can help you quickly identify any cost anomalies providing you the agility your organization needs.

ENHANCED SECURITY AND COMPLIANCE SOLUTION

Leverage multi-layered security provided across physical datacenters, infrastructure, and operations with cyber security experts actively monitoring to protect your business assets and data.

UNLIMITED 24x7x365 CLOUD SUPPORT

We invest time to get to know your business and provide unlimited Cloud platform support. Our customer portal allows you can create and update tickets, view and update users in your environment and view your active workloads.
