ENAVATE® Xcelerate™

Fast Track Your Move to Dynamics 365 Business Central

Xcelerate: BC Foundation Inventory Add-Ons

**Modular.
Scalable.
Made for You.**

Xcelerate: BC Foundation includes Business Central's Core Finance functionality. Looking for more to help manage your inventory?

Our modular approach enables you to add extra features as needed. Get your inventory working for you with the tools that help you plan smarter, fulfill faster, and build efficiency into every transaction.

Sales, Purchasing, and Inventory Setup (SPI) | $9500
Optimize cash flow and strengthen financial control by streamlining your order-to-cash and procure-to-pay processes.

Sales Pricing Experience | $2000
Take control of profitability, ensure consistent pricing, and improve margin control with flexible item, customer, and group pricing.

Sales Quotes | $1500
Efficiently deliver product quotes to your customers and prospects—convert them into sales orders with ease.

Assembly Management | $2000
Easily manage single-level assemblies—import your items and BOMs and start building with confidence.

Dropship & Special Orders | $1500
Simplify special orders—convert customer requests into linked purchase orders instantly, without juggling inventory or procurement complexity.

Item Tracking | $2500
Improve accuracy and accountability—track items by serial or lot number during purchasing, sales, and inventory processes.

Basic Warehouse | $3000
Boost efficiency and reduce errors by organizing your stockroom or warehouse with bin management and standard workflows.

Planning Parameters | $2500
Keep operations efficient and avoid stockouts with smart replenishment using reorder points, safety stock, and lead times.

Power BI SPI Reports | $2000
Turn data into decisions—gain real-time insights to improve inventory management and boost profitability.
