

A partnership focused on a better experience for SD Worx users

“The personal connection with ENAVATE was crucial to us. It was there not just in the sales phase, but it followed into the building of the project.”

Partner

ENAVATE partnered with SD Worx, the leading European payroll solutions provider, to build a Microsoft Dynamics 365-based solution. More than 40 ENAVATE team members have worked on the product build and subsequent support, which includes customer implementations, a long-term support agreement, continuous upgrades, environment maintenance and release management.
