

# Enavation Cloud: Drink-IT by NORRIQ

**Enavation  
Cloud** DRINK-IT  
BY NORRIQ

## ***Modernize Your Entire Beverage Business Operation***

Enavation Cloud: Drink-IT by NORRIQ can help your beverage business modernize operations with advanced business intelligence and automation that work to simplify processes and promote data-driven business decisions. We'll help you fast-track your journey to digital transformation and establish templated solutions, so you can focus on growing your business and nurturing your sales and customer funnels.

## ***Make it. Move It. Manage It. Drink-IT.***

### **WHAT IS ENAVATION CLOUD: DRINK-IT?**

Enavation Cloud: Drink-IT by NORRIQ is built on the Microsoft Dynamics 365 Business Central solution and is integrated with Power BI to provide your business with the tools you need to reach your goals. This turnkey offering helps to manage the production, distribution, and taxation of beverages from a unified system without sacrificing time, profits, or security. Our team will guide you through a seamless and secure implementation or migration to ensure your business experiences minimal disruptions.

### **ACCOMPLISH MORE WITH LESS**

Define, simplify, and automate day-to-day workflows across all systems with templated solutions to outperform the competition, from purchasing and logistics to warehousing and sales.

### **ENHANCED FINANCIAL CAPABILITIES**

Maintain control over your finances, confidential information and financial processes from a single, unified source. Manage all internal GL, AP, AR functions with industry-specific reporting, metrics, and capabilities.

### **EXPERT MIGRATION PARTNERSHIP**

The Enavate migration team is here for your business every step of the way to ensure your migration or implementation is streamlined and secure.

### **SOFTWARE-AS-A-SERVICE PRICING MODEL**

The software-as-a-service (SaaS) delivery model of this offering makes quick implementation, cost reduction, and maximum business impact more accessible to small and mid-sized beverage businesses than ever before.

# Enhanced Performance Capabilities

Simplify beverage management by streamlining and automating day-to-day purchasing, logistics, warehousing and sales processes.

## BUDGET FORECASTING

Our offering makes forecasting easy. Plan, control, and budget using real-time data to create a comprehensive view of your operation.

## DUTY MANAGEMENT

Efficiently and accurately manage local tax declarations, inventory, tax reclaims, excise tax payments and more.

## BUSINESS INTELLIGENCE

Gain deeper insights and quickly deploy initiatives for enhanced collaboration. Report on KPIs like shipment volume and time to value for better decision-making.

## EMPTIES MANAGEMENT

Benefit from added transparency surrounding the empty goods life cycle for consistent tracking of your organization's production.

## DISCOUNT MANAGEMENT

Keep your financial supply chain in order with effective Discount Management that will increase profits and track the results of any promotional activity.
